Covers society and culture, people and movements, politics and foreign policy. Surveys and evaluates the best scholarship on every important era and topic. Includes book review section on essential readings.

Rethinking American History in a Global Age - Thomas Bender
2002-05-14

In rethinking and reframing the American national narrative in a wider context, the contributors to this volume ask questions about both nationalism and the discipline of history itself. The essays offer fresh ways of thinking about the traditional themes and periods of American history. By locating the study of American history in a transnational context, they examine the history of nation-making and the relation of the United States to other nations and to transnational developments. What is now called globalization is here placed in a historical context. A cast of distinguished historians from the United States and abroad examines the historiographical implications of such a reframing and

offers alternative interpretations of large questions of American history ranging from the era of European contact to democracy and reform, from environmental and economic development and migration experiences to issues of nationalism and identity. But the largest issue explored is basic to all histories: How does one understand, teach, and write a national history even as one recognizes that the territorial boundaries do not fully contain that history and that within that bounded territory the society is highly differentiated, marked by multiple solidarities and identities? *Rethinking American History in a Global Age* advances an emerging but important conversation marked by divergent voices, many of which are represented here. The various essays explore big concepts and offer historical narratives that enrich the content and context of American history. The aim is to provide a history that more accurately reflects the dimensions of American experience and better connects the past with contemporary concerns for American identity, structures of power, and world presence.

The American Vision, Student Edition - McGraw-Hill Education
2006-01-03

Put the work of a Pulitzer prize-winning author in your students' hands

every day The American Vision boasts an exceptional author team with specialized expertise in colonial, Civil War, 20th-century, and Civil Rights history. The full panorama of American history comes alive through their vivid and accurate retelling, and the co-authorship of National Geographic ensures that the program's new maps, charts, and graphs are correct to the last detail.

The Oxford Handbook of American Political History - Paula Baker 2020

"American political history, like military history, has never lost a popular audience. If anything, the appetite for books dealing with the nation's founding, its presidents, and elections has grown in recent years. Written by historians, academics in other fields, independent writers, and journalists, some of these books have sold very well. A few jumped from the printed page to film and theater. Ron Chernow's biography of Alexander Hamilton inspired a hit Broadway musical. Though some films depicting presidents spun fanciful stories—at least one hopes no teachers had to correct student misconceptions about Abraham Lincoln dispatching vampires—others had a stronger commitment to the historical record. Since 2000, Lincoln, Franklin D. Roosevelt, John F. Kennedy, Lyndon Johnson, Richard Nixon, and George W. Bush have been the focus of films with various levels of attentiveness to historical scholarship and box-office appeal. Teachers could do worse than Charlie Wilson's War as a tool for illustrating how Congress works. Even the more obscure and distant historical figures have had their turn: James A. Garfield's truncated presidency is the subject of a popular book and documentary"--

My Revision Notes: AQA AS/A-level History: The American Dream: Reality and Illusion, 1945-1980 - Vivienne Sanders 2018-04-09

Target success in AQA AS/A-level History with this proven formula for effective, structured revision; key content coverage is combined with exam preparation activities and exam-style questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Enables students to plan and manage a successful revision programme using the topic-by-topic planner - Consolidates knowledge

with clear and focused content coverage, organised into easy-to-revise chunks - Encourages active revision by closely combining historical content with related activities - Helps students build, practise and enhance their exam skills as they progress through activities set at three different levels - Improves exam technique through exam-style questions with sample answers and commentary from expert authors and teachers - Boosts historical knowledge with a useful glossary and timeline

Mothers of Conservatism - Michelle M. Nickerson 2014-09-07

Mothers of Conservatism tells the story of 1950s Southern Californian housewives who shaped the grassroots right in the two decades following World War II. Michelle Nickerson describes how red-hunting homemakers mobilized activist networks, institutions, and political consciousness in local education battles, and she introduces a generation of women who developed political styles and practices around their domestic routines. From the conservative movement's origins in the early fifties through the presidential election of 1964, Nickerson documents how women shaped conservatism from the bottom up, out of the fabric of their daily lives and into the agenda of the Republican Party. A unique history of the American conservative movement, Mothers of Conservatism shows how housewives got out of the house and discovered their political capital.

Security V. Liberty - Daniel Farber 2008-04-24

In the weeks following 9/11, the Bush administration launched the Patriot Act, rejected key provisions of the Geneva Convention, and inaugurated a sweeping electronic surveillance program for intelligence purposes—all in the name of protecting national security. But the current administration is hardly unique in pursuing such measures. In *Security v. Liberty*, Daniel Farber leads a group of prominent historians and legal experts in exploring the varied ways in which threats to national security have affected civil liberties throughout American history. Has the government's response to such threats led to a gradual loss of freedoms once taken for granted, or has the nation learned how to restore civil liberties after threats subside and how to put protections in place for the future? *Security v. Liberty* focuses on periods of national emergency in

the twentieth century—from World War I through the Vietnam War—to explore how past episodes might bear upon today's dilemma. Distinguished historian Alan Brinkley shows that during World War I the government targeted vulnerable groups—including socialists, anarchists, and labor leaders—not because of a real threat to the nation, but because it was politically expedient to scapegoat unpopular groups. Nonetheless, within ten years the Supreme Court had rolled back the most egregious of the World War I restrictions on civil liberties. Legal scholar John Yoo argues for the legitimacy of the Bush administration's War on Terror policies—such as the detainment and trials of suspected al Qaeda members—by citing historical precedent in the Roosevelt administration's prosecution of World War II. Yoo contends that, compared to Roosevelt's sweeping use of executive orders, Bush has exercised relative restraint in curtailing civil liberties. Law professor Geoffrey Stone describes how J. Edgar Hoover used domestic surveillance to harass anti-war protestors and civil rights groups throughout the 1960s and early 1970s. Congress later enacted legislation to prevent a recurrence of the Hoover era excesses, but Stone notes that the Bush administration has argued for the right to circumvent some of these restrictions in its campaign against terrorism. Historian Jan Ellen Lewis looks at early U.S. history to show how an individual's civil liberties often depended on the extent to which he or she fit the definition of "American" as the country's borders expanded. Legal experts Paul Schwartz and Ronald Lee examine the national security implications of rapid advances in information technology, which is increasingly driven by a highly globalized private sector, rather than by the U.S. government. Security v. Liberty shows that civil liberties are a not an immutable right, but the historically shifting result of a continuous struggle that has extended over two centuries. This important new volume provides a penetrating historical and legal analysis of the trade-offs between security and liberty that have shaped our national history—trade-offs that we confront with renewed urgency in a post-9/11 world.

Inventing the "American Way" : The Politics of Consensus from the New

Deal to the Civil Rights Movement - Wendy L. Wall Assistant Professor of History Queen's University 2007-12-19

In the wake of World War II, Americans developed an unusually deep and all-encompassing national unity, as postwar affluence and the Cold War combined to naturally produce a remarkable level of agreement about the nation's core values. Or so the story has long been told. Inventing the "American Way" challenges this vision of inevitable consensus.

Americans, as Wendy Wall argues in this innovative book, were united, not so much by identical beliefs, as by a shared conviction that a distinctive "American Way" existed and that the affirmation of such common ground was essential to the future of the nation. Moreover, the roots of consensus politics lie not in the Cold War era, but in the turbulent decade that preceded U.S. entry into World War II. The social and economic chaos of the Depression years alarmed a diverse array of groups, as did the rise of two "alien" ideologies: fascism and communism. In this context, Americans of divergent backgrounds and beliefs seized on the notion of a unifying "American Way" and sought to convince their fellow citizens of its merits. Wall traces the competing efforts of business groups, politicians, leftist intellectuals, interfaith proponents, civil rights activists, and many others over nearly three decades to shape public understandings of the "American Way." Along the way, she explores the politics behind cultural productions ranging from *The Adventures of Superman* to the Freedom Train that circled the nation in the late 1940s. She highlights the intense debate that erupted over the term "democracy" after World War II, and identifies the origins of phrases such as "free enterprise" and the "Judeo-Christian tradition" that remain central to American political life. By uncovering the culture wars of the mid-twentieth century, this book sheds new light on a period that proved pivotal for American national identity and that remains the unspoken backdrop for debates over multiculturalism, national unity, and public values today.

48 Liberal Lies about American History - Larry Schweikart 2008

Challenges four dozen popular misconceptions about the United States' past, debunking beliefs about such topics as the separation of church and

state, Lincoln's agenda behind the Emancipation Proclamation, and Truman's reasons for bombing Hiroshima. 25,000 first printing.

Triumph of the Right - Kurt Schuparra 1998-09-24

In this, the first book to deal exclusively with conservative politics in California, author Kurt Schuparra pinpoints the myriad factors that led to the formation and rise of the conservative movement in California after World War II, culminating in the election of Ronald Reagan as governor in 1966. While Schuparra is concerned with prominent figures such as Ronald Reagan, California senator William Knowland, Richard Nixon, and Arizona senator Barry Goldwater, his larger interest is in the principal players in the movement behind these individuals, the causes they espoused, and the movement's role in pivotal electoral contests. Schuparra also provides an assessment of how the struggle between liberals and conservatives - and those caught in the middle - in the Golden State both reflected and influenced the national debate over major governmental policies and social issues, particularly on racial matters.

AP® U.S. History Crash Course Book + Online - Larry Krieger
2015-01-19

REA's Crash Course for the AP® U.S. History Exam - Gets You a Higher Advanced Placement® Score in Less Time Completely Revised for the 2015 Exam! Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement® U.S. History exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP® U.S. History is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Fully revised for the 2015 AP® U.S. History exam, this Crash Course is based on an in-depth analysis of the revised AP® U.S. History course description outline and sample AP® test questions. It covers only the information tested on the new exam, so you can make the most of your valuable study time. Expert Test-taking

Strategies Crash Course presents detailed, question-level strategies for answering both the multiple-choice and essay questions. By following this advice, you can boost your score in every section of the test. Take REA's Online Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP® exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP® U.S. History student must have. When it's crucial crunch time and your Advanced Placement® exam is just around the corner, you need REA's Crash Course for AP® U.S. History!

Mercury Rising: John Glenn, John Kennedy, and the New Battleground of the Cold War - Jeff Shesol 2021-06-01

A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard Friendship 7, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America's sense of self-belief. Mercury Rising re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, Mercury Rising reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the "hour of maximum danger."

The Jungle - Upton Sinclair 2010-08-19

A searing novel of social realism, Upton Sinclair's The Jungle follows the

fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

Huey P. Long A Summary Of Greatness, Political Genius, American Martyr - Gerald Smith 2015-08-08

This book has been prepared for the benefit of people who want the real truth concerning Huey P. Long, which truth has been kept from the public by authors, journalists, and historians. No book on the life of Huey Long has been accurate. All books that have been published concerning this great man have either been published by his enemies, his cynical observers or ignorant historians who have built their books out of the newspaper morgues. This book is written by one knowledgeable concerning his greatness who loved him and respected him and dares, in this volume, to tell things that have never been told before. William Howard Taft, while Chief Justice of the Supreme Court, said: "Huey P. Long is the most brilliant attorney to appear before me during my term as Chief Justice." Dr. Gerald L. K. Smith was with Mr. Long when he was shot. He was at his bedside when he died. He delivered the funeral oration over his grave.

America's History - 2018

In Love - Amy Bloom 2022-03-08

NEW YORK TIMES BESTSELLER • A powerful memoir of a love that leads two people to find a courageous way to part—and a woman's struggle to go forward in the face of loss—that “enriches the reader's life with urgency and gratitude” (The Washington Post) “A pleasure to read . . . Rarely has a memoir about death been so full of life. . . . Bloom has a talent for mixing the prosaic and profound, the slapstick and the serious.”—USA Today ONE OF THE BEST BOOKS OF THE YEAR: NPR Amy Bloom began to notice changes in her husband, Brian: He retired early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer's disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom's captivating, insightful voice and with her trademark wit and candor, *In Love* is an unforgettable portrait of a beautiful marriage, and a boundary-defying love.

[American History](#) - 1987

Uncle Sam Wants You - Christopher Capozzola 2010-04-12

Based on a rich array of sources that capture the voices of both political leaders and ordinary Americans, *Uncle Sam Wants You* offers a vivid and provocative new interpretation of American political history, revealing how the tensions of mass mobilization during World War I led to a significant increase in power for the federal government. Christopher Capozzola shows how, when the war began, Americans at first mobilized society by stressing duty, obligation, and responsibility over rights and

freedoms. But the heated temper of war quickly unleashed coercion on an unprecedented scale, making wartime America the scene of some of the nation's most serious political violence, including notorious episodes of outright mob violence. To solve this problem, Americans turned over increasing amounts of power to the federal government. In the end, whether they were some of the four million men drafted under the Selective Service Act or the tens of millions of home-front volunteers, Americans of the World War I era created a new American state, and new ways of being American citizens.

Switching Sides - Tony Fels 2018-01-06

Tony Fels traces a remarkable shift in scholarly interpretations of the Salem witch hunt from the post-World War II era up through the present. In *Switching Sides*, Tony Fels explains that for a new generation of historians influenced by the radicalism of the New Left in the 1960s and early 1970s, the Salem panic acquired a startlingly different meaning. Determined to champion the common people of colonial New England, dismissive toward liberal values, and no longer instinctively wary of utopian belief systems, the leading works on the subject to emerge from 1969 through the early 2000s highlighted economic changes, social tensions, racial conflicts, and political developments that served to unsettle the accusers in the witchcraft proceedings. These interpretations, still dominant in the academic world, encourage readers to sympathize with the perpetrators of the witch hunt, while at the same time showing indifference or even hostility toward the accused.

Switching Sides is meticulously documented, but its comparatively short text aims broadly at an educated American public, for whom the Salem witch hunt has long occupied an iconic place in the nation's conscience. Readers will come away from the book with a sound knowledge of what is currently known about the Salem witch hunt—and pondering the relationship between works of history and the ideological influences on the historians who write them. “With vivacious prose, palpable passion, and powerful reasoning, he delivers a book that is dramatic and dynamic. A rare work of critical historiography that could actually matter, *Switching Sides* is a brilliant and impassioned volume that will be a must-

read for all students of early America.” —Michael W. Zuckerman, author of *Peaceable Kingdoms*

John F. Kennedy - Alan Brinkley 2012-05-08

The young president who brought vigor and glamour to the White House while he confronted cold war crises abroad and calls for social change at home John Fitzgerald Kennedy was a new kind of president. He redefined how Americans came to see the nation's chief executive. He was forty-three when he was inaugurated in 1961—the youngest man ever elected to the office—and he personified what he called the "New Frontier" as the United States entered the 1960s. But as Alan Brinkley shows in this incisive and lively assessment, the reality of Kennedy's achievements was much more complex than the legend. His brief presidency encountered significant failures—among them the Bay of Pigs fiasco, which cast its shadow on nearly every national-security decision that followed. But Kennedy also had successes, among them the Cuban Missile Crisis and his belated but powerful stand against segregation. Kennedy seemed to live on a knife's edge, moving from one crisis to another—Cuba, Laos, Berlin, Vietnam, Mississippi, Georgia, and Alabama. His controversial public life mirrored his hidden private life. He took risks that would seem reckless and even foolhardy when they emerged from secrecy years later. Kennedy's life, and his violent and sudden death, reshaped our view of the presidency. Brinkley gives us a full picture of the man, his times, and his enduring legacy.

The End Of Reform - Alan Brinkley 2011-09-21

At a time when liberalism is in disarray, this vastly illuminating book locates the origins of its crisis. Those origins, says Alan Brinkley, are paradoxically situated during the second term of Franklin Delano Roosevelt, whose New Deal had made liberalism a fixture of American politics and society. *The End of Reform* shows how the liberalism of the early New Deal—which set out to repair and, if necessary, restructure America's economy—gave way to its contemporary counterpart, which is less hostile to corporate capitalism and more solicitous of individual rights. Clearly and dramatically, Brinkley identifies the personalities and events responsible for this transformation while pointing to the broader

trends in American society that made the politics of reform increasingly popular. It is both a major reinterpretation of the New Deal and a crucial map of the road to today's political landscape.

The Unfinished Nation - Alan Brinkley 1997

"In *The Unfinished Nation*, Alan Brinkley provides a clear and intelligent account of the American past that strikes a balance between the new diversity in scholarship and the narrative unity that any general history must have. He makes clear that one can incorporate the rich and varied experiences of America's many cultures into a coherent and compelling story and at the same time retain a sense of what ties Americans together as members of a perpetually troubled but remarkably successful nation"--Description from amazon.com.

Understanding Racist Activism - Kathleen M. Blee 2017-07-20

White supremacist groups are highly secretive, so their public propaganda tells us little about their operations or the people they attract. To understand the world of organized racism it is necessary to study it from the inside by talking to their members and observing their groups. Doing so reveals a disturbing picture of how fairly ordinary white people learn to embrace the vicious ideas and dangerous agendas of white supremacy. This book takes the reader inside organized racism, revealing the kind of women and men who join groups, such as the Ku Klux Klan or neo-Nazi skinheads, and what they do in those groups. The volume collects significant published works from renowned scholar Kathleen M. Blee's work on racist activism, alongside new essays on the theories, methods, and approaches of studying racist activism. Discussing topics such as emotional issues in research, the place of violence and hate in white supremacy, and how women are involved in racial terrorism, Blee makes use of a range of sources, including oral histories, ethnographic observations, and interviews, to shape her findings. Written by the pioneer and leading scholar of women in racist activism, this volume is essential reading for students, scholars, and general readers interested in the areas of social movements, politics, race studies, and American history.

The Liberal Hour - Robert Weisbrot 2008-07-10

An engaging behind-the-scenes look at the lesser-known forces that fueled the profound social reforms of the 1960s. Provocative and incisive, *The Liberal Hour* reveals how Washington, so often portrayed as a target of reform in the 1960s, was in fact the era's most effective engine of change. The movements of the 1960s have always drawn the most attention from the decade's chroniclers, but it was in the halls of government—so often the target of protesters' wrath—that the enduring reforms of the era were produced. With nuance and panache, Calvin Mackenzie and Robert Weisbrot present the real-life characters—from giants like JFK and Johnson to lesser-known senators and congressmen—who drove these reforms and were critical to the passage of key legislation. *The Liberal Hour* offers an engrossing portrait of this extraordinary moment when more progressive legislation was passed than in almost any other era in American history.

Major Problems in American History, 1920-1945 - Colin Gordon 2010-08

This collection of primary source documents and essays provides in-depth coverage of the cultural, social, political, economic, and intellectual events of the 1920-1945 era. In keeping with the proven strengths of the *Major Problems* series, the compelling documents are grouped with important secondary sources, accompanied by chapter introductions, selection headnotes, and suggested readings.

American History - Alan Brinkley 2007-02

Give Me Liberty! An American History - Eric Foner 2016-09-15

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool.

American History - Alan Brinkley 2011-06-01

Alan Brinkley's *American History* sets the standard for balance of perspective and the exploration of ongoing historical questions. In this

AP edition, we are pleased to announce a number of firsts for American History: a new primary-source feature that makes connections between the present and the past; a new pedagogy program that helps students to comprehend and think critically about content; and a groundbreaking set of digital tools, powered by Connect; that create a unique learning environment. The result is greater course success. Connect to the stories, connect to the experience, connect to success in history. - Back cover.

American History Connecting with the Past - Alan Brinkley 2012

Voices of Protest - Alan Brinkley 2011-08-10

The study of two great demagogues in American history--Huey P. Long, a first-term United States Senator from the red-clay, piney-woods country of northern Louisiana; and Charles E. Coughlin, a Catholic priest from an industrial suburb near Detroit. Award-winning historian Alan Brinkley describes their modest origins and their parallel rise together in the early years of the Great Depression to become the two most successful leaders of national political dissidence of their era. *Winner of the American Book Award for History*

Liberalism and Its Discontents - Alan Brinkley 1998

Discusses the impact of Franklin Roosevelt, Robert Penn Warren, T. Harry Williams, Huey Long, Allard Lowenstein, and Oral Roberts upon American political culture

Fear Itself: The New Deal and the Origins of Our Time - Ira Katznelson 2013-03

An exploration of the New Deal era highlights the politicians and pundits of the time, many of whom advocated for questionable positions, including separation of the races and an American dictatorship.

The Unfinished Nation: A Concise History of the American People

- Alan Brinkley 2013-01-03

Known for its clear narrative voice and impeccable scholarship, Alan Brinkley's best-selling program for the U.S. survey course invites students to think critically about the many forces that continually create the Unfinished Nation that is the United States. In a concise but wide-

ranging narrative, Brinkley shows the diversity and complexity of the nation and our understanding of its history--one that continues to evolve both in the events of the present and in our reexamination of new evidence and perspectives on the past. This edition features a series of Patterns of Popular Culture essays, as well as expanded coverage of pre-Columbian America, new America in the World essays, and updated coverage of recent events and developments that demonstrates how a new generation continues to shape the American story.

Brinkley, American History: Connecting with the Past UPDATED AP Edition, 2017, 15e, Student Edition - Alan Brinkley 2016-01-06

Includes the "AP Advantage 3-Step Solution, 1 Platform" formula for learning.

The American Pageant - Thomas Andrew Bailey 1998

USAs historie indtil 1996

Americanism - Michael Kazin 2012-01-01

What is Americanism? The contributors to this volume recognize Americanism in all its complexity--as an ideology, an articulation of the nation's rightful place in the world, a set of traditions, a political language, and a cultural style imbued with political meaning. In response to the pervasive vision of Americanism as a battle cry or a smug assumption, this collection of essays stirs up new questions and debates that challenge us to rethink the model currently being exported, too often by force, to the rest of the world. Crafted by a cast of both rising and renowned intellectuals from three continents, the twelve essays in this volume are divided into two sections. The first group of essays addresses the understanding of Americanism within the United States over the past two centuries, from the early republic to the war in Iraq. The second section provides perspectives from around the world in an effort to make sense of how the national creed and its critics have shaped diplomacy, war, and global culture in the twentieth and twenty-first centuries. Approaching a controversial ideology as both scholars and citizens, many of the essayists call for a revival of the ideals of Americanism in a new progressive politics that can bring together an increasingly polarized and fragmented citizenry. Contributors: Mia Bay,

Whitfield, Brandeis University Alan Wolfe, Boston College

The Unfinished Nation - Alan Brinkley 2018-11

American Moonshot - Douglas Brinkley 2019-04-02

Instant New York Times Bestseller As the fiftieth anniversary of the first lunar landing approaches, the award winning historian and perennial New York Times bestselling author takes a fresh look at the space program, President John F. Kennedy's inspiring challenge, and America's race to the moon. "We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard; because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one we intend to win."—President John F. Kennedy On May 25, 1961, JFK made an astonishing announcement: his goal of putting a man on the moon by the end of the decade. In this engrossing, fast-paced epic, Douglas Brinkley returns to the 1960s to recreate one of the most exciting and ambitious achievements in the history of humankind. American Moonshot brings together the extraordinary political, cultural, and scientific factors that fueled the birth and development of NASA and the Mercury, Gemini and Apollo projects, which shot the United States to victory in the space race against the Soviet Union at the height of the Cold War. Drawing on new primary source material and major interviews with many of the surviving figures who were key to America's success, Brinkley brings this fascinating history to life as never before. American Moonshot is a portrait of the brilliant men and women who made this giant leap possible, the technology that enabled us to propel men beyond earth's

orbit to the moon and return them safely, and the geopolitical tensions that spurred Kennedy to commit himself fully to this audacious dream. Brinkley's ensemble cast of New Frontier characters include rocketeer Wernher von Braun, astronaut John Glenn and space booster Lyndon Johnson. A vivid and enthralling chronicle of one of the most thrilling, hopeful, and turbulent eras in the nation's history, American Moonshot is an homage to scientific ingenuity, human curiosity, and the boundless American spirit.

Alan Brinkley - David Greenberg 2019-01-08

Few American historians of his generation have had as much influence in both the academic and popular realms as Alan Brinkley. His debut work, the National Book Award-winning *Voices of Protest*, launched a storied career that considered the full spectrum of American political life. His books give serious and original treatments of populist dissent, the role of mass media, the struggles of liberalism and conservatism, and the powers and limits of the presidency. A longtime professor at Harvard University and Columbia University, Brinkley has shaped the field of U.S. history for generations of students through his textbooks and his mentorship of some of today's foremost historians. *Alan Brinkley: A Life in History* brings together essays on his major works and ideas, as well as personal reminiscences from leading historians and thinkers beyond the academy whom Brinkley collaborated with, befriended, and influenced. Among the luminaries in this volume are the critic Frank Rich, the journalists Jonathan Alter and Nicholas Lemann, the biographer A. Scott Berg, and the historians Eric Foner and Lizabeth Cohen. Together, the seventeen essays that form this book chronicle the life and thought of a working historian, the development of historical scholarship in our time, and the role that history plays in our public life. At a moment when Americans are pondering the plight of their democracy, this volume offers a timely overview of a consummate student—and teacher—of the American political tradition.

AP Achiever (Advanced Placement Exam Preparation Guide) for AP US History (College Test Prep)* - Jason George 2007-01-05

Designed to help Advanced Placement students succeed in their studies

and achieve a '5' on the AP Exam, AP Achiever for American History provides: An introduction to the American History Advanced Placement Course and Exam, including tips on essay writing for the free-response section of the Exam. A discussion of the AP Themes within the chapter, a chapter summary, as well as practice multiple-choice, free-response and document-based questions with detailed answers in every chapter. Two complete practice exams parallel the AP American History Exam in terms

of question type and number of questions. Each practice exam is also similar to the AP Exam with regard to content, style, and format, and it includes thorough explanations for your students. AP Achiever for American History may be used independently or in conjunction with any American history text. For the most benefit use in conjunction with McGraw-Hill's leading text, American History: A Survey, 12th Edition, by Brinkley.
