Arrest and Detention in India -  
Dipa Dube 2021-11-01

Human rights enshrined in the Constitution of India protect Indian citizens against misuse of powers by the State and its functionaries. However, detainee rights are often neglected in custody. Arrest and Detention in India: Law, Procedure and Practice critically examines arrest and detention laws in India, focusing on constitutional guarantees and criminal jurisprudence. The book studies legislations that have invited much criticism from human rights activists, such as the Code of Criminal Procedure (CrPC), Unlawful Activities (Prevention) Act (UAPA), Armed Forces (Special Powers) Act (AFSPA) and Narcotic Drugs and Psychotropic Substances Act (NDPS). It explores topical areas such as inter-state arrests, juvenile crime, remand and detainee rights. This book evaluates the controversial powers of arrest and detention, arguing for stricter regulation in terms of the international, constitutional and human rights mandates. The book examines public

safety and whether it can be implemented through legal standards that compromise personal liberty.

*Strengthening the Criminal Justice System* - Asian Development Bank 2006

Comparative, International, and Global Justice - Cyndi Banks 2015-09-23

Comparative, International and Global Justice: Perspectives from Criminology and Criminal Justice presents and critically assesses a wide range of topics relevant to criminology, criminal justice and global justice. The text is divided into three parts: comparative criminal justice, international criminology, and transnational and global criminology. Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues. Authors Cyndi Banks and James Baker address these complex global issues using a scholarly but accessible approach, often

using detailed case studies. The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation. The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner. It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide, and to prepare students for a future where fields of study like transnational crime are unexceptional.

*The Universal Declaration of Human Rights* - Guðmundur S. Alfreðsson 1999-03-31

This volume celebrates the 50th anniversary of the Universal Declaration of Human Rights (UDHR). In so doing, it offers a

comprehensive and systematic treatment of the rights and duties contained in the UDHR, in the light of its history, the intentions of its drafters and the standard-setting activities and monitoring efforts which have grown out of its existence. Each article of the UDHR is treated in a separate chapter; each chapter is written by different authors, all scholars from or associated with the Nordic countries, all active in human rights work, either academically or in the field. A consolidated bibliography completes the collection. The subtitle of this volume is "A Common Standard of Achievement," a phrase drawn from the Preamble of the UDHR. In many ways, this collection is intended to demonstrate that this phrase has, to a considerable extent, come true.

*Prosecutors and Prosecution* - Taylor & Francis Group  
2019-06-09

Prosecutors are the most powerful actors in the legal system. Their decisions have significant implications for how crime is defined, who is charged, and the punishment they receive. This volume

draws together classic and recent scholarship that critically examines how prosecutorial power is constituted through their decision-making processes, the relationships between legal changes and court actors, and the consequences of this for society. Taken as a whole, this collection offers insights into law in action, how social change shapes the legal system, and alternative forms of case resolution.

**World Report 2020** - Human Rights Watch 2020-01-28

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. ### **Children Without a State** -

Jacqueline Bhabha 2011

This text identifies three contemporary manifestations of stateless: legal statelessness, de facto statelessness and effective statelessness. The book provides a variety of examples, including chapters on Palestinian children in Israel including undocumented young people seeking higher education in the United States.

*Police Investigation - Powers, Tactics and Techniques* - V.

Sithannan 2014-01-10

Anchoring himself firmly on the ever-contested space of Indian Law and Legal Processes, and drawing substantive support from his rich and varied experience as a Law Enforcement Officer in the Police Department of Tamil Nadu, India, the author, V. Sithannan in presenting this scholarly work, has sought to fulfill the legitimate requirements of Police Officers, Advocates, Judicial Officers, Social Activists, NGOs, Gender Activists and the general public. The Author's utopian

ideal that no innocent person should be punished and no offender should go unpunished is the dominant message of the book. For this purpose, the Author has given a balanced treatment of the whole problem of crime and its investigation. The book contains 27 Chapters and 4 Annexures. For example, the 1st Chapter deals with the origin, growth and development of Military and Police and the succeeding chapters elaborate the structure, powers and the duties of police, the conduct of investigation, the first information report, the jurisdictional limitations of police, dying declaration, inquest, search and seizure, examination of witnesses, arrest, interrogation, confession, bail, remand and custody, test identification parade, tender of pardon to approver, letter rogatory, extradition, burden of proof and presumptions, Police diaries, final report, further investigation and maintenance of Police records. The comparative chart given to aid

the Police Officers to conclude whether death is suicidal or homicidal or accidental in all forms of death that are encountered by the Police while conducting investigation will be of immense use with scientific accuracy. Another Chart provided indicating the procedural steps starting from the collection of evidence through the final analysis of the whole crime and its commission would surely empower the investigating officers with fool-proof methods of investigation. A most praise-worthy feature of the book is its detailed discussion on the immature juveniles, who are in conflict with law and the crimes against children and women. The annexure to the book is of immense use as a ready-reckoner, especially annexure I and II by which a Police Officer may easily find whether a particular offence in any of the most frequently used special enactment is cognizable, bailable etc. The Author has fulfilled the needs of the investigating Officers in the

epilogue by providing 47 points which may go against the prosecution, and therefore, has given 48 tips for the successful prosecution of a criminal case by a Police Officer. Again, in the spirit of an academic researcher, the Author has given a catalogue of 724 Checklists in all the Chapters so that the readers would find the book highly informative to have a statutorily authorised answer to any doubt in a given situation in any of the investigative procedures. The citation of 785 landmark judgements of various High Courts and the Supreme Court for the period 1965-2008 in the appropriate chapters is another outstanding feature of the book, making it vade mecum for Police Officers, Advocates, Officers of Law and Courts and also for NGOs, Social Activists and Persons of Public Interest.

### **India and**

### **Counterinsurgency - Sumit Ganguly 2009-05-07**

This edited volume focuses on India's experiences waging counterinsurgency campaigns since its independence in 1947. Filling a clear gap in the literature, the book traces and assess the origins, evolution and current state of India's counterinsurgency strategies and capabilities, focusing on key counterinsurgency campaigns waged by India within and outside its territory. It also analyzes the development of Indian doctrine on counterinsurgency, and locates this within the overall ebb and flow of India's defense and security policies. The central argument is that counterinsurgency has been an integral part of India's overall security policy and can thereby impart much to political and military leaders in other states. Since its emergence from British colonialism, India's defence policies have not merely sought to protect and preserve India's inherited colonial borders from threats by rival states, but have also

sought to prevent and suppress secessionist movements. In countering insurgencies, the Indian state has fashioned strategies that seek to repress militarily any secessionist movement, while simultaneously forging a range of civilian administrative and institutional arrangements that attempt to address the grievances of disaffected populations. The book highlights key strategic and tactical innovations that the Indian Army and security forces made to deal with a range of insurgent movements. Simultaneously, it also examines how the civilian-military nexus enabled India's policy makers to utilize existing, and formulate novel, institutional means to address extant political grievances. India has been most successful where it has managed to use calibrated force, obtained the trust of much of the aggrieved population and made persuasive commitments to political and institutional reform. Examination of these elements of India's

counterinsurgency performance can be compared to counterinsurgency doctrine developed by other countries, including the United States, and thus yield comparative policy prescriptions and recommendations that can be applied to other counterinsurgency contexts. This book will be of great interest to students of counterinsurgency and irregular warfare, Indian politics, Asian Security Studies and Strategic Studies in general.

Preventive Detention of Terror Suspects - Diane Webber  
2016-01-08

Preventive detention as a counter-terrorism tool is fraught with conceptual and procedural problems and risks of misuse, excess and abuse. Many have debated the inadequacies of the current legal frameworks for detention, and the need for finding the most appropriate legal model to govern detention of terror suspects that might serve as a global paradigm. This book offers a comprehensive and critical analysis of the detention of terror suspects under domestic criminal law, the law of armed conflict and international human rights law. The book looks comparatively at the law in a number of key jurisdictions including the USA, the UK, Israel, France, India, Australia and Canada and in turn compares this to preventive detention under the law of armed conflict and various human rights treaties. The book demonstrates that the procedures governing the use of preventive detention are

deficient in each framework and that these deficiencies often have an adverse and serious impact on the human rights of detainees, thereby delegitimizing the use of preventive detention. Based on her investigation Diane Webber puts forward a new approach to preventive detention, setting out ten key minimum criteria drawn from international human rights principles and best practices from domestic laws. The minimum criteria are designed to cure the current flaws and deficiencies and provide a base line of guidance for the many countries that choose to use preventive detention, in a way that both respects human rights and maintains security.

Criminal Justice India Series - 2002

Introduction to International Human Rights Law - Curtis F. J. Doebbler 2006

This book is basic starting point for students and practitioners of law and anyone else who wishes to learn more about the elaborate system of

international norms and accompanying mechanisms that have been developed to protect individuals' human rights. It is written so as to benefit the seasoned professional as well as the casual lay reader.

**Human Rights and Criminal Justice** - Ben Emmerson 2012

A survey of Czech business law, tax and accounting regulations. The political, legal and economic systems of the Republic are outlined.

Forced Marriage and 'Honour' Killings in Britain - Christina Julios 2016-03-09

This book explores the contemporary phenomenon of forced marriage and 'honour' killings in Britain. Set against a

background of increasing 'honour'-based violence within the country's South Asian and Muslim Diasporas, the book traces the development of the 'honour' question over the past two decades. It accordingly witnesses unprecedented changes in public awareness and government policy including ground-breaking 'honour'-specific legislation and the criminalisation of forced marriage. All of which makes Britain an important context for the study of this now indigenous and self-perpetuating social problem. In considering the scale of the challenge and its underlying causes, attention is paid to the intersections of gendered power structures that disadvantage female members of 'honour' cultures as well as feminist theories that seek to explain them. The book features five key case-studies of 'honour' killings and draws from a wide range of narratives including those of 'honour' violence survivors, grassroots service providers and legislators. Such myriad of

perspectives reveals the complexity of the 'honour' issue and the deep ideological divisions that characterise it. With the UK's multiculturalist discourse unable to reconcile protecting patriarchal minority cultures with safeguarding gender equality and human rights, the book raises fundamental questions about the country's future direction. Following a long trend of state-sponsored integrationist policies, the government's response to the 'honour' question points decisively in the direction of a post-multicultural British nation.

**Management Manual for Medical Officers** - S. N. Manjunatha 2013-12-30

This book can also be used for teaching and training purposes in medical colleges and paramedical schools

**Pakistan Annual Law Digest**  
- 1987

Terrorism, 2013-2015 - Edward Mickolus 2016-08-08

This second comprehensive chronology of international terrorist attacks covers three eventful years during which the Islamic State supplanted al-Qaeda as the most active, well-financed and well-armed terrorist group worldwide. Domestic and international incidents around the globe are covered, outlining several trends and exploding a number of media myths. The author examines the enigmas of contemporary terrorist behavior and offers indicators and predictions to watch for in the coming years.

**Police in Pakistan** - Saima Manzoor, Akif Manzoor, Engr.Asif Manzoor 2014-06-21  
The second edition with the addition of permanent values to eradicate crime from the society has made it more

thought provoking at the face of sectarianism, extremism, intolerance, terrorism, and corruption: it is revolutionary, opening new vistas and bold horizons of intellectual endeavors. The book is thus a unique attempt at the rediscovery of maintaining Law & Order for permanent values: scholarly written and exquisitely presented.

**SAARC Human Rights Report, 2006** - Suhas Chakma 2006

Pakistan's Counterterrorism Challenge - Moeed Yusuf 2014-02-18

Pakistan, which since 9/11 has come to be seen as one of the world's most dangerous places and has been referred to as the epicenter of international terrorism, faces an acute counterterrorism (CT) challenge. The book focuses on violence being perpetrated against the Pakistani state by Islamist groups and how Pakistan can address these challenges, concentrating not only on military aspects but on

the often-ignored political, legal, law enforcement, financial, and technological facets of the challenge. Edited by Moeed Yusuf of the US Institute of Peace, and featuring the contributions and insights of Pakistani policy practitioners and scholars as well as international specialists with deep expertise in the region, the volume explores the current debate surrounding Pakistan's ability and incentives to crack down on Islamist terrorism and provides an in-depth examination of the multiple facets of this existential threat confronting the Pakistani state and people. The book pays special attention to the non-traditional functions of force that are central to Pakistan's ability to subdue militancy but which have not received the deserved attention from the Pakistani state nor from western experts. In particular, this path-breaking volume, the first to explore these various facets holistically, focuses on the weakness of political institutions, the role of

policing, criminal justice systems, choking financing for militancy, and regulating the use of media and technology by militants. Military force alone, also examined in this volume, will not solve Pakistan's Islamist challenge. With original insights and attention to detail, the authors provide a roadmap for Western and Pakistani policymakers alike to address the weaknesses in Pakistan's CT strategy. *World Report 2019 - Human Rights Watch 2019-02-05* The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report.
